

REMARKS

This Amendment is filed in response to the Advisory Action of October 27, 2008 in which pending claims 1-38 were rejected.

The Advisory Action seems to imply that the claims might be accepted if it is made clear in the claims that the user interface is being used to insert character strings that did not previously exist in the suggestion list.

The applicant agrees with this and thus the first independent method claim (claim 1) has been amended as follows:

"said picture file name is edited by the user from a suggested name into another name in the user interface of the mobile station."

Also other independent claims have been amended in a corresponding way.

The objections and rejections of the Office Action of August 21, 2008, having been obviated by amendment or shown to be inapplicable, withdrawal thereof is requested and passage of claims 1-38 to issue is earnestly solicited.

Respectfully submitted,

Francis J. Maguire
